Welcome to the Beauty Barn Clinic

Where Rustic Charm Meets Modern Elegance - Your Journey to Timeless Beauty Begins Here.

Nestled in the charming village of West Horsley, Surrey, the Beauty Barn Clinic stands as an elite and highly professional sanctuary for beauty and wellness. With a diverse array of expert beauty treatments, soothing massages, and clinical therapies, this esteemed clinic has garnered a devoted clientele who continually seek its services for special occasions or as part of their routine indulgence.

Situated near the picturesque Surrey Hills, the Beauty Barn Clinic attracts people from East and West Horsley as well as surrounding villages. The tranquil barn setting and inviting atmosphere have cemented the clinic's reputation as a haven for restorative calm and relaxation—a unique retreat from conventional High Street salons. Here, clients are welcomed warmly and assured of a serene experience, with a peaceful environment designed to refresh and rejuvenate.

Clinical Treatments

Discover a diverse selection of specialised clinical therapies designed to deliver truly transformative results. The Barn offers a wide range of expert-led treatments, such as laser hair removal, Lipofirm body sculpting, chemical peels, Micro-needling, Non-surgical Face Lifts, and an array of additional options that can enhance your unique beauty journey.

RESURFACING PEEL WITH LED LIGHT THERAPY

Our resurfacing treatments with LED light therapy target the outer superficial layers of the skin, using acids and enzymes to exfoliate dead and damaged skin cells. This process unclogs pores, calms inflammation, smooths skin texture, and regulates excess oil production. These advanced treatments encourage cell turnover, revealing a healthier and brighter complexion immediately after treatment. Results may continue to improve over the days following treatment due to the stimulation of new healthy cells beneath the skin's surface. Designed to address all skin concerns, including signs of aging, acne & scarring, pigmentation, and sun damage, while being safe for sensitised skin.

Per Session £120 Course of 6 £575

LED LIGHT THERAPY TREATMENT

Light Emitting Diode therapy is a skincare treatment that utilises specific wavelengths of light to target various skin concerns. Different colored lights penetrate the skin at varying depths to trigger different reactions in the skin cells.

It is used to treat acne, reduce inflammation, promote collagen production, improve skin texture, and reduce the appearance of fine lines and wrinkles. LED light therapy is non-invasive, painless, and requires no downtime, making it a popular choice for skin rejuvenation treatments.

Per Session £65 Course of 6 £325

FACE LIFTING AND MUSCLE TONING

A directly applied gentle electrical current (TriLipo Dynamic Muscle Activation) works by creating intervals of stimulation in the layers of the muscle which forces light contractions of the muscles to mimic the effects of exercise. This process encourages increased blood flow and muscle repair, promoting a firmer, more toned facial appearance delivering a non-invasive lifting effect.

Per Session £95

SKIN TIGHTENING AND MUSCLE TONING

Combining our tripolar radio-frequency and TriLipo Dynamic Muscle Activation technology into one super-facial provides immediate skin tightening, stimulation of collagen and elastin, as well lifting and sculpting the facial muscles.

Per Session £130 Course of 6 £700

ULTIMATE COLLAGEN BOOST FACIAL

This comprehensive 4-in-1 treatment integrates cutting-edge technology and techniques to deliver the ultimate anti-aging solution. Beginning with Dynamic Muscle Activation for muscle sculpting and toning, it progresses to Radio Frequency for firming and skin tightening. Subsequently, a gentle chemical peel unveils vibrant skin, followed by LED Light Therapy to boost collagen production, culminating in a radiant, youthful complexion.

Per Session £150

GENEO FACIAL

Geneo is a revolutionary skincare treatment that combines four essential procedures: exfoliation, oxygenation, and skin tightening. Utilising radio frequency technology, it stimulates fibroblast activity to enhance collagen production and tighten collagen fibers for immediate skin firming. Inspired by natural hot springs, Geneo induces skin oxygenation, promoting a body response that delivers oxygen to the skin. Additionally, Geneo exfoliates the skin, creating an ideal environment for nutrient infusion during and after treatments. Suitable for all skin types, Geneo offers a comprehensive solution for rejuvenated, revitalised skin.

Per Session £135 Course of 6 (Face only) £700

Neck add on £20 Course of 6 (Face & Neck only) £790

GENEO LUXURY

Experience the ultimate indulgence with Geneo Luxury, combining the comprehensive 4-in-1 Geneo facial with a customised prescriptive facial. This luxurious treatment features the Geneo Tripollar radio frequency, exfoliation and oxygenation, and ultrasound technologies, along with a hydrating face mask. While you luxuriate, enjoy a soothing neck, shoulder, and scalp massage for complete relaxation.

Per Session £175

GENEO TIGHTEN AND TONE

Experience the ultimate skincare transformation with the iconic Geneo treatment fused with TriLipo Dynamic Muscle Activation, maximising the benefits of your Geneo facial while integrating state-of-the-art muscle toning technology. Enjoy skin tightening, muscle toning, exfoliation, oxygenation, and ultrasound product infusion for a comprehensive rejuvenating experience.

Per Session £175 Course of 6 £900

TRIPOLLAR

DMA

DERMAQUEST

Power Peptide Resurfacer..... £85

Indulge in intense hydration and uplifting results, leaving your skin luminous and toned. Enriched with potent Matrixyl and Rigin, it ignites collagen production and enhances skin elasticity, delivering an instant boost in firmness and tightness. This treatment harnesses the power of a potent blend of 20% Glycolic, 20% Lactic Acid, and 9% Peptides, offering the ultimate anti-aging solution. (45 mins)

Glycolic Acid Resurfacer £85

Experience the revitalising power of our Glycolic Acid Resurfacer, designed to breathe new life into lackluster skin. Harnessing cutting-edge stem cell technology, this treatment rebuilds and fortifies the skin, promoting natural cell turnover to reduce fine lines and wrinkles. With 30% Glycolic Acid targeting rough texture and congestion, it's perfect for those seeking anti-aging benefits, reenergised skin, and a smoother skin texture. (45 mins)

Primary Pumpkin Resurfacer..... £85

Combat aging concerns with this advanced resurfacing treatment, harnessing the power of 40% Pumpkin pulp, along with 3% Glycolic Acid, 3% Lactic Acid, and 2% Salicylic Acid. It delivers exceptional exfoliation while fueling the skin with essential minerals and vitamins. Designed to address dullness, uneven tone, fine lines, wrinkles, and scar tissue, it offers a comprehensive solution for rejuvenating your skin. (45 mins)

GlycoMask Fusion Facial..... £85

Discover DermaQuest with this treatment, combining Glycolic Acid with a personalised treatment mask chosen specifically for you and your skin needs. Enjoy improved skin texture, minimised pores, reduced congestion, deep hydration, and enhanced collagen promotion. Suitable for all skin types, this hybrid treatment delivers impressive results without any downtime. (45 mins)

DERMAPLANING

Dermaplaning is a non-invasive gentle exfoliating skin treatment that uses a surgical scalpel to remove the outer layer of dead skin cells and remove fine vellus hair, often referred to as “peach fuzz,” from the face. This process helps to improve the skin’s texture and tone, promote cellular turnover, and enhance the penetration of skincare products. This treatment also includes a nourishing and conditioning mask and LED light therapy.

Per Session £85

MICRO-NEEDLING

Micro-needling is a cosmetic procedure that involves using a device with fine needles to create controlled micro-injuries to the skin. These tiny punctures stimulate the skin’s natural healing process, promoting collagen and elastin production. As the skin heals, it becomes firmer, smoother, and more even in texture. Micro-needling is used to improve the appearance of acne scars, wrinkles, fine lines, stretch marks, and overall skin texture. It can also enhance the absorption of skincare products, making them more effective.

Combining a chemical peel with micro-needling enhances skin exfoliation and promotes deeper penetration of nutrients, maximising the benefits of both treatments. The chemical peel targets specific concerns like hyperpigmentation and acne scars while stimulating collagen production and skin regeneration.

Per Session	£260	Course of 3 with peel.....	£790
Per Session with peel	£295	Course of 6	£1200
Course of 3	£650	Course of 6 with peel.....	£1450

COMPLIMENTARY CONSULTATION

If you're interested in either laser hair removal or want to chat about which treatment would be best for you, we invite you to schedule a complimentary consultation with one of our trained professionals.

During the consultation, we'll assess your skin type or hair type to determine whether you're a good candidate for laser hair removal or which treatments would be most beneficial

LIPOFIRM PRO

Lipofirm Pro is a cutting-edge body sculpting and skin tightening treatment that combines radiofrequency and dynamic muscle activation to target fat cells and tone the skin. Lipofirm Pro works deep within the layers of your skin to stimulate collagen production, increase blood circulation, and break down stubborn fat cells. This dual-action approach not only helps to reduce the appearance of cellulite but also tightens sagging skin, leaving you with a more sculpted and toned physique.

VITAMIN SHOTS

Vitamin B12 shots offer a multitude of benefits, including boosting energy levels, improving skin, hair, and nail health, enhancing brainpower, and supporting heart health. A course of 4 weekly Vitamin B12 shots followed by a monthly maintenance dose is essential for optimal benefits, providing an initial boost, sustaining long-term benefits, preventing deficiency, and addressing individual needs.

Per Shot..... £40 Course of 4 £120

LEMON BOTTLE FAT DISSOLVING

Lemon Bottle Fat Dissolving injections offer a non-invasive solution, targeting and eliminating stubborn fat deposits. By harnessing a potent blend of Riboflavin (vitamin B2) and premium ingredients, these injections turbocharge the metabolism of fat cells, breaking them down effectively. Administered directly into fatty tissues, the specialised solution kickstarts the decomposition process, allowing the body to naturally expel fat cells. Tackling areas such as the face, chin, arms, bra line, hips, stomach, and thighs, a series of 4 weekly sessions may be required for optimal results.

Large area	Small area
Per Session From £150	Per Session From £95
Course of 4 weekly From £500	Course of 4 weekly From £300

LEMON BOTTLE SKIN BOOSTER

Lemon Bottle Skin Booster delivers a powerful blend of vitamins, amino acids, antioxidants, and hyaluronic acid directly into targeted areas of your face. This precise Micro-injection therapy produces remarkable results, including:

- Enhancing skin elasticity, promoting a youthful appearance
- Brightens and evens out skin tone, resulting in a radiant glow
- Provides deep hydration, restoring moisture balance for supple, rejuvenated skin
- Smoothens skin texture and aids in tissue recovery, fostering a flawless complexion
- Minimises the appearance of pores, enhancing overall skin texture and appearance

Suitable for all skin types.

Per Session From £125 Course of 4 weekly From £400

How to find us

Nestled in the heart of West Horsley, our salon awaits at the end of Manor Farm Lane. With easy access from major routes such as the M25 and A3, our premises offer a peaceful sanctuary away from the hustle and bustle of everyday life. Located between Northcote Road and Greta Bank, our tranquil setting provides a serene escape for our valued clients. With convenient on-site parking, we warmly welcome you to experience the rejuvenating treatments available at our cherished retreat.
